Rentex Product No. LIT0000-KIT

Mfr Part No. LK.0005647

Detailed Specifications

Less is more--sometimes. The Arri Softbank D2 Three-Light Kit was designed with modern, light-sensitive digital media in mind, so you can accomplish even more than you might think with the 1250 total watts in this package. Two of Arri's most popular Fresnel lights form the core of this complete lighting outfit: two of the very efficient 300W Plus Fresnels each use a 3.2" (80 mm) low expansion, borosilicate Fresnel lens to produce a soft, even field of light. The 650W Fresnel features a 4.3" (110 mm) lens with the same reflector, housing and power cord as the 300W Fresnel, producing (of course) more light. A Chimera 16 x 22" softbox is included, as well as barndoors, filter frames, light stands, bulbs, a ceiling scissor clamp to hang a fixture from a drop ceiling, and a hard compact wheeled carrying case for storage and transport. This kit is quipped for 120V AC operation. It will also function with 220-240 AC Voltage, with the appropriate bulb and plug adapter, available separately.

Features

- 1250 Total Watts
- Two Fresnel 300s, 120V Bulbs
- One Fresnel 650, 120V Bulb
- 16x22" Softbox, Adapter
- Compact Wheeled Carrying Case

Rating	Each Fresnel 300: 300W Fresnel 650: 650W
Socket (Lampholder)	GY9.5
Lens (Condenser)	Each Fresnel 300: 3.2" (80 mm) Fresnel 650: 4.3" (110 mm)
Reflector (Mirror)	Spherical, specular, high purity aluminum
Mounting	Baby 5/8" (16 mm) stand mount
Yoke	Attaches to any 5/8" (16 mm) stud
Cable	25' (7.6 m) cable with in line switch, 120V Edison plug
Focusing	Worm-gear driven
Weight	Each Fresnel 300: 6.5 lbs (2.9 kg) Fresnel 650: 7.2 lbs (3.3 kg)
Dimensions	Each Fresnel 300: 7.1 x 10 x 6.3" (18 x 25.4 x 16 cm) Fresnel 650: 9 x 12 x 7.5" (23 x 30.5 x 19 cm)
Kit Weight	55.4 lbs (25.2 kg)
