Apple 27" Thunderbolt Display

Download Spec Sheet @ www.rentex.com/spec/MAC9020.pdf

Rentex Product No. MAC9020

Mfr Part No. MC914LL/A

The Apple 27" Thunderbolt Display introduces Thunderbolt technology to the market, providing ultra-fast speeds. Thunderbolt is 20 times faster than USB 2.0 and up to 12 times faster than FireWire 800, positioning this monitor in a position to change the way you work, play, and more! The 6 ports on the monitor include, of course, the Thunderbolt port, 3 powered USB 2.0 ports, a FireWire 800 port, a Gigabit Ethernet port, and a Kensington security slot. That's a lot of flexibility when it comes to connecting other devices to the monitor.

The Thunderbolt Display turns your MacBook into one stunning desktop, but it can also add oomph to your iMac or Mac mini configuration. The glossy 27" widescreen display has an incredible 2560 x 1440 resolution that makes everything you view on it come alive and the built-in speaker system and subwoofer provides full-range audio.

Features:

- 2560 x 1440 Resolution
- 178°/178° Viewing Angle
- 1000:1 Contrast Ratio
- 12ms Response Time
- Built-In 2.1 Speaker System
- Built-In Face Time HD Camera with Mic
- Connections: 3xUSB 2.0, 1xThunderbolt Port, 1xFireWire 800, 1xGigabit Ethernet Port, 1xKensington Security Slot

OS X 10.6.8 or later

Detailed Specifications

Type	Thunderbolt with TFT active-matrix LCD with in-plane switching (IPS)	Touch Screen	No
Viewable Size	27"	Speakers	Built-in 2.1 speaker system (49W)
Resolution	2560 x 1440	Power Requirements	100-240VAC, 50/60Hz Consumption: 250W (max), 2W (Energy saver mode)
Brightness	375cd/m2	Dimensions (WxHxD)	25.7 x 19.35 x 8.15 inches
Viewing Angles	178° H / 178° V	Weight	23.5 lbs
Contrast Ratio	1000:1		
Response Time	12ms		
Colors Supported	16.7 million		
Connections	3 x USB 2.0 1 x FireWire 800 1 x Gigabit Ethernet port 1 x Thunderbolt port 1 x Kensington security slot
