This illustration is not drawn to scale.
Caution:
-When mounting to the ceiling, use the special mounting bracket. Furthermore, in order to prevent it from falling down from the ceiling, use the supplied wire on the mounting bracket.

NOTE:

- The value for $L$ (distance to screen) varies slightly within $\pm 5 \%$ depending on the zoom lens characteristics.
- At the shortest projection distance, the zoom lens characteristics may cause slight image distortion.
- When vertical keystone correction is used, the image is corrected in the direction that reduces its projected size.
- When the ET-D75LE50 is mounted, the optical lens shift function cannot be used.
