Rentex Product No. MIC2500

Mfr Part No. MX185

Microflex Lavalier microphones bring a new level of sophistication to personal voice reproduction. Like all Microflex family microphones, the Lavaliers use Shure's interchangeable condenser cartridges, available in cardioid polar patterns. Compatible with all Shure wireless bodypack transmitters, their high sensitivity and wide frequency response guarantee great sound.

Features

- Wide dynamic range and frequency response for accurate sound reproduction across the audio spectrum
- Interchangeable cartridges that provide an optimal choice for each application
- Rotatable tie-clip that pivots in 90 degree increments for placement flexibility
- Balanced, transformerless output for increased immunity to noise over long cable runs

Detailed Specifications

Type	Condenser (electret bias)
Frequency Response	50 to 17,000 Hz
Polar Pattern	Cardioid
Impedance	EIA rated at 150 ohms (180 ohms actual)
Phantom power required	11 to 52 Vdc phantom, 2.0 mA
