Rentex Product No. 4K09820

Mfr Part No. X981UHD

The impressive large screens offer 4K (3,840 x 2,160) display, which is four times the resolution of Full HD. They precisely reproduce photos and video down to their fine details and bring overwhelming presence, realism, and depth to public spaces. The multi-screen function lets you divide the display and show separate input signals at the same time. Even when the display is divided into two, three, or four screens, there are various multi-screen functions using 4K ultra high resolution. In addition, the display provides a seamless 4K multi-screen environment by displaying four Full HD (1,920 x 1,080) screens at the same time.

Features

- 4K (3,840 x 2,160) Resolution
- UHD Upscaling Function
- SpectraView® engine
- ICC profile emulation function
- Multi-screen display of up to four screens enables display of large volumes of information
