E6 Countryman Omnidirectional Earset Microphone

Download Spec Sheet @ www.rentex.com/spec/MIC1440.pdf

Rentex Product No.MIC1440

Mfr Part No. E6XOW5L1SR

Detailed Specifications

The Countryman E6 Flex Omnidirectional Microphone combines the springy, form-fitting ear grips of the E6, with the flexible and durable boom of the E6i earset microphone. The E6 Flex provides virtually invisible operation in stage performances, trade shows, houses-of-worship, auctions, lectures and much more. The omnidirectional is most versatile, with its generous pick up pattern and uniform frequency response. Flexible microphone positioning is maintained and the included windscreen minimizes the wind noise often associated with cardioid microphones.

Features

- 1/8" (3.5mm) Locking Mini Connector
- For Sennheiser Transmitters
- Slim Springy Ear Grips of E6
- Flexible Boom of E6i
- 1mm Diameter Cable
- Beige

Transducer	Condenser
Polar Pattern	Omnidirectional
Frequency Response	20Hz to 20kHz
Signal-to-Noise Ratio	Equivalent Acoustic Noise: 24dBA SPL
Maximum Input Sound Level	120dB SPL
Output Impedance	2k Ohms
Output Connectors	1/8" (3.5mm) Locking Mini Connector for Sennheiser Transmitters
Contrast Ratio	Operating Current: 500uA Operating Voltage: 1 to 2V Power Supply Voltage: +3V with 2.7k ohm Load +5V with 6.8k ohm Load +9V with 15k ohm Load
Weight	0.07 oz (2g)
