The CY-TD48LDAH Infrared Touch Overlay from Samsung adds touch capability to compatible 48" Samsung Signage. The Touch Overlay places a layer over the panel surface to allow the user's finger to slide along the surface easily experiencing up to 10 simultaneous points of touch. The added layer also provides protection against the external environment. The overlay is compatible with Samsung D-Series displays and Windows, Mac, and Linux operating systems.

Features

- **For Samsung DM48E ONLY**
- Converts a standard LFD into a touchscreen LFD for a more interactive viewing experience
- Treatment on the front of the panel provides a realistic writing experience that is similar to writing on a conventional whiteboard
