One of our most consistent switchers for small to medium events, the Analog Way Pulse2 (PLS350-3G) is a flexible seamless switcher with 8 simultaneous inputs and Native Matrix mode. Inputs by DVI, HDMI, SDI and VGA are ready to handle anything that shows up on site without issues. Adjust the output image in Preview to switch with confidence or in Program (live) to preset just the right look for the room. You can even embed or dis-embed and route audio sources as needed.
