PIX-E7

VIDEO DEVICES PIX-E7

Recording Field Monitor for Professionals

Advanced Monitoring. The PIX-E7 provides 'capture with confidence' monitoring thanks to its optically bonded, capacitive touch screen for maximum light transmission and minimal reflection. With 500 nit brightness and a 179° angle of view, its 7-inch, 1920x1200 IPS display ensures accurate monitoring of clarity and color depth even in bright sunlight. Protected by damage-resistant Gorilla Glass 2 and a robust die-cast metal chassis, the PIX-E7 was made to withstand the harshest field production work.

Unsurpassed Recording. The 4K-compatible PIX-E7 offers the full range of Apple ProRes codecs, including the highest quality Apple ProRes 4444 XQ, a 12-bit codec designed to preserve the detail in wide, dynamic range imagery captured by today's high performance digital image sensors. Files are directly recorded to a removable mSATA drive. It also accepts external timecode via a BNC linear timecode input connection, and features a general purpose input/output for remote control and tally light workflows.

4K 1920x1200

KEY FEATURES

PIX-Assist™ Monitoring Tools

- TapZoom™ for Rapid Focus
- LUTs
- Scopes including: Waveform, Histogram, and Vectorscope
- False Colors and Zebras for Setting Exposure
- Guide Markers for Framing
- Peaking
- Anamorphic Desqueeze (4:3)
- Full HD, Ultra-Bright IPS Touch Screen
- Real Buttons for Fast Tactile Control

Recording Capabilities

- 4K Recording
- Apple® ProRes 4444 XQ, 12-Bit

Solid Construction

- Robust Die-Cast Metal Chassis
- Virtually Indestructible Gorilla® Glass 2

Recording Field Monitor for Professionals

SPECIFICATIONS

Display	
LCD Size	7-inch
Resolution & ppi	1920 x 1200, 323 ppi
Luminance (Brightness)	500 nit
IPS with Gorilla Glass 2	×
PIX-Assist Monitoring Tools	
TapZoom	2x, 4x
LUTS	S-Log 2 & 3, Canon Log, V-Log, plus custom LUTs (.cube)
Peaking Filter	✓
Guide Markers	V
False Colors	4-step, 12-step
Zebras	Zebras 1, Zebras 2
Scopes	
Waveform Monitor	Luma (White, Green) RGB (Overlay, Parade)
Vectorscope	✓
Histogram	Luma (White, Green) RGB (Overlay, Parade)
Four-Way Monitoring (Video Feed, Histogram, Vectorscop	e, Waveform)
Recorder	
Max Resolution/Frame Rate	120 fps (HD); 30 fps (4K UHD, 4K DCI)
Codec	Apple ProRes Proxy to Apple ProRes 4444 XQ
File Transfer to Computer	via SpeedDrive USB 3.0 interface
Media	
	ved 240 GB mSATA Solid State Drive ible with third-party 128 GB to 1 T mSATA SSDs)
Video	
Inputs	
	6G-SDI, 3G-SDI (Level A & B), HDMI
Outputs	6G-SDI, 3G-SDI (Level A & B), HDMI HD-SDI, HDMI
Outputs	
Outputs Audio	HD-SDI, HDMI 8 2 unbalanced line, 3.5mm 2 balanced mic/line,
Outputs Audio Max No. Tracks Analog Inputs	HD-SDI, HDMI 8 2 unbalanced line, 3.5mm 2 balanced mic/line, XLR (via optional PIX-LR)
Outputs Audio Max No. Tracks Analog Inputs Embedded Audio Inputs	HD-SDI, HDMI 8 2 unbalanced line, 3.5mm 2 balanced mic/line,
Outputs Audio Max No. Tracks Analog Inputs Embedded Audio Inputs Headphone Output	HD-SDI, HDMI 8 2 unbalanced line, 3.5mm 2 balanced mic/line, XLR (via optional PIX-LR)
Outputs Audio Max No. Tracks Analog Inputs Embedded Audio Inputs Headphone Output Remote Control & Timecode	HD-SDI, HDMI 8 2 unbalanced line, 3.5mm 2 balanced mic/line, XLR (via optional PIX-LR) 8 SDI and 2 HDMI
Outputs Audio Max No. Tracks Analog Inputs Embedded Audio Inputs Headphone Output	HD-SDI, HDMI 8 2 unbalanced line, 3.5mm 2 balanced mic/line, XLR (via optional PIX-LR)
Outputs Audio Max No. Tracks Analog Inputs Embedded Audio Inputs Headphone Output Remote Control & Timecode Record Start/Stop Flags Embedded Timecode	B 2 unbalanced line, 3.5mm 2 balanced mic/line, XLR (via optional PIX-LR) 8 SDI and 2 HDMI SDI, HDMI SDI, HDMI, LTC in (BNC),
Outputs Audio Max No. Tracks Analog Inputs Embedded Audio Inputs Headphone Output Remote Control & Timecode Record Start/Stop Flags	B 2 unbalanced line, 3.5mm 2 balanced mic/line, XLR (via optional PIX-LR) 8 SDI and 2 HDMI SDI, HDMI SDI, HDMI, LTC in (BNC), LTC via 3.5mm Line In
Outputs Audio Max No. Tracks Analog Inputs Embedded Audio Inputs Headphone Output Remote Control & Timecode Record Start/Stop Flags Embedded Timecode Powering, Weight & Dimension	B 2 unbalanced line, 3.5mm 2 balanced mic/line, XLR (via optional PIX-LR) 8 SDI and 2 HDMI SDI, HDMI SDI, HDMI, LTC in (BNC), LTC via 3.5mm Line In

ACCESSORIES

(PIX-E7 package includes monitor and power supply only. Accessories sold separately.)

SpeedDrive™* is a nonproprietary industry-standard mSATA drive contained within a custom-designed enclosure. The SpeedDrive plugs directly into the PIX-E, doubles as a USB 3.0 thumb drive and the result is a very high speed off load to any computer without the need for a special cable or drive docking station.

Two SpeedDrive options are available: a 240 GB SpeedDrive and an Enclosure-Only version that allows the user to choose and easily fit any size of mSATA drive. mSATA drives are available in sizes ranging from 128 GB to 1 TB.

*SpeedDrives are purchased separately

PIX-LR audio interface is a screw-on accessory that provides PIX-E monitors with two XLR inputs and outputs, featuring Sound Devices-caliber mic preamps, hyper-accurate LED metering, and dedicated transport and gain controls.

PIX-E7 KIT includes a hard case, sun hood, articulating arm, two 240 GB SpeedDrives, two Sony-compatible L-mount batteries, the PIX-USB3 Y-Cable, and video I/O cables, two right-angle HDMI adapters, two rightangle BNC adapters PIX-E CASE, alone, available as well.
