

SHURE HIGH CAPACITY MIC RACK FROM RENTEX

ALL-IN-ONE-CASE MULTI-CHANNEL WIRELESS MIC SOLUTION

The High Capacity Mic Rack is a multi-channel wireless system, featuring seamless operation and connectivity in an all-in-one rugged, self-sufficient rolling unit—ideal for clients needing more than 5 mic slots.

PRODUCT HIGHLIGHTS

- Empowered by a Furman Power Conditioner for even power distribution.
- Designed to house 5 dual wireless kits for 10 channels, or 5 quad wireless kits for a total of 20 channels.
- Constructed with 5 lockable drawers—capable of holding 4 handhelds, 4 belt packs and more—to prevent opening during transportation while safely stowing vital accessories, including a bottom drawer for paddles and antennas.
