

Mfr No. BDLKWEBPTR
Rentex No. XVP3400

The Blackmagic Design Web Presenter is a compact desktop device that allows you to connect any SDI or HDMI camera signal and stream it live on the Web in 720p HD. Connect a camera or any other source, and then connect the Web Presenter to your computer's USB port.

The Web Presenter makes your SDI/HDMI source appear as a standard UVC and UAC compatible USB webcam, so it's capable of broadcasting video and audio on any webcam-compatible platform and software, including Skype, YouTube Live, Facebook Live, Twitch.tv, Periscope, Open Broadcaster, and XSplit Broadcaster on Mac, Windows, Linux, and Chrome OS systems. However, the magic happens thanks to a built-in Teranex conversion technology that will take your HD or Ultra HD signal and automatically convert it to the low-data-rate yet high-quality 720p resolution.

Video Input	1 x SDI on BNC 1 x HDMI Type A
Video Output	1 x SDI program out on BNC 1 x SDI loop out on BNC 1 x HDMI Type A loop out
SDI Transmission Rates	12G, 6G, 3G, 1.5G, 270 Mbps
Analog Audio Inputs	1 x XLR 2 x RCA
Computer Interface	1 x USB 2.0 Type-B
Firmware Updates	1 x USB mini
Streaming Standards	720p over USB
Power Requirements	1 x Internal 90-240 VAC
Power Consumption	24 W
Weight	1.4 lb (0.64 kg)
Dimensions (H x W x D)	5.5 x 6.7 x 1.8" (14 x 17 x 4.6 cm)

FEATURES

- Stream Any SDI or HDMI Signal in 720p HD
- Connect Virtually Any SDI or HDMI Camera
- Presents SDI/HDMI Source as USB Webcam
- Built-In Teranex Conversion Technology
- 12G-SDI, HDMI, XLR Mic & RCA L/R Inputs
