- Front acrylic cover provides extra protection and professional look
- Packaged in cases of 2

The ezPoster 560 is a versatile, portable LED display solution. Its slim and sleek design features a built-in media player, WiFi, USB and ethernet connectivity for easy setup and seamless operation. It can function as a standalone unit or be cascaded with multiple units to create larger video walls. Content uploading is made simple through the ezPoster software, and there's also an HDMI port for personal media input. Ideal for exhibits, lobbies, and events, the ezPoster 560 Series offers a dynamic visual experience.
