Mfr No. AVS  
Rentex No. MARAAVS

AVS is a distinctive, all-in-one broadcast tool that is designed for live-streaming and video calling applications. The AVS features a HD webcam with the ability to manually pan and tilt. The webcam is also compatible with H.264 video compression. The integrated boundary microphone is a high-quality 48kHz/16-bit USB condenser located in the base of the unit. The fully dimmable LED light ring can be accessorized with cool, warm, and day-light filters for studio quality production. The AVS is compact, sleek, and lightweight design makes it perfect for desktop applications or any location.

To make the system truly self-contained and capable of handling any streaming/podcast task without the need for additional equipment, the AVS has a high-speed USB-C computer output for low latency and an internal USB hub. There is even an onboard headphone amplifier making monitoring audio simple. Everything the demanding streaming/broadcasting enthusiast needs in one convenient, high-performance package.

Headphone Amplifier Frequency Response	20 Hz – 20 kHz
LED Light Ring	4" dimmable LED light ring (30) wide-angle white LEDs @ 5600K (3) accessory filters
USB	USB 1 & 2: (2) Type A USB 3.0, 0.75A total available current between two ports for powering devices To PC: (1) USB-C connector / USB 3.0 connection USB Audio In: Class 2 compliant speaker device for audio to be monitored in headphone output – set by user in the computer
Microphone Auxiliary Output	Fixed line-level output on 3.5mm TRS jack
Power	AC-DC power supply 100 ~ 240 VAC compatible 12 VDC @ 1 amp output
Dimensions (H x W x D)	19.1" x 7.39" x 6.26"
Weight	2.29 lbs (1.04kg)

### FEATURES

- HD Webcam (H.264 video compression) w/ fixed-focus lens & manual pan and tilt capabilities
- USB condenser boundary microphone (48kHz/16bit)
- Dimmable LED ring light w/ diffusion filters
- USB-C output for low-latency computer connection
- (2x) USB 3.0 for external device connection
