Connecting Devices

1. Laptop Charger

2. Video Conferencing Light

2a. Video Conferencing Light Attachment

3. USB Cable

1. Connect USB-C power supply to any USB-C port located on both sides of computer.

2. Attach the Video Conferencing Light to the back of laptop using the suction cub.
   a. Ensure the engraved "Lume Cube" portion is facing the back of the computer.
   b. *IMPORTANT*: ensure suction cup is clean and free of any debris.

3. The Video Conference Light box contains a USB-C to USB-C cable. Connect cable to Lume Cube and any available USB-C ports on either side of laptop. Press and hold the blue power button to turn the device on.

# Operating The System

7. Powering the laptop on

8a. Connecting Ethernet Cable

7. Power on the computer by pressing power button located on the right upper corner of keyboard, and wait until macOS initializes. Press enter to login (no password).

8. Ensure the computer is connected to the Internet, by using one of the following methods: Ethernet or Wi-Fi.

a) Ethernet:
   - Plug the Ethernet cable to the LAN port located on USB-C adapter.
   - Please refer to your Internet Service Provider (ISP) for more information.
