

Rentex has everything you need to produce high-quality virtual conferences for your clients.

Designed for easy setup and use, our Remote Presenter Kits are intended to be shipped on your behalf to a presenter at home or at their office. Our kits allow easy connection to popular conferencing services.

Need the client's background available to use with Zoom? No problem.

Want to put custom instructions in the case or on the desktop for the presenter? We can do that too.

Our goal is to support you as you support your customers in their virtual and hybrid events.

We will even provide a UPS return label so the presenter can send the kit right back to us.
