

Mfr No. GX-T300
Rentex No. GRET300

The Green Extreme T300 HD Webcam is a Full HD 1920x1080@30fps resolution camera. It connects seamlessly to Windows or Mac computers through USB, delivering exceptional images, profiting from the 65° field of view and autofocus lens. The built-in microphone enhances the spoken word from as much as 13 feet from the source, blending brilliant its image. A sleek mount design securely clips the webcam to the top of most monitors, adjusting for precise tilt and framing. A standard ¼"-20 tap accepts clips, light stands, and ballhead supports for mobile applications where remote streaming is essential.
