

Mfr No. MBP8000
Rentex No. MIC0705

The MBP8000 Handheld Microphone Boom Pole is ideal for broadcasting, news casting, film/TV/video production, school plays/productions, and more field applications. Our easy-to-carry Boom Pole is machined from sturdy and light weight aluminum for secure mounting of your microphone. Four telescopic rods quickly adjust the length of the pole from less than a yard to over 10 feet using a simple and efficient twist-and-lock mechanism. An internal coiled cable management system is included.

Application	Telescoping pole for field micing and recording
Threading	5/8"-27 male and 3/8"
Length	35" -10'
Weight	2.3 lbs (Materials: Aluminum and EVA grip)
Included	Internal coiled Cable
