

# vMix Pro Package from Rentex

Complete switching and streaming package for hybrid events and LIVE production.

vMix has proven itself as a flexible and reliable switching and streaming platform. It is a software video mixer and switcher that utilizes the latest advances in computer hardware to provide live HD/4K video mixing from a high performance Windows 10 computer.

- Live streaming software to publish live productions directly to the Internet.
- LIVE mixing, switching, recording and LIVE streaming of SD, full HD and 4K video sources including cameras, video files, DVDs, images, PowerPoint and more.
- Live interview (or presentation) solution for up to 8 remote guests or presenters with vMix call
- Slow motion Instant Replay for up to 8 cameras with vMix Replay

Work at up to 4k and combine local and remote network inputs including incoming streams by vMix Call, SRT, RTMP, NDI and more with local HDMI 2.0 or 12G-SDI inputs through the AJA I/O 4k Plus.

The heart of the system is a high performance Alienware m15 R3 laptop featuring i7-10750H 6-core processor and RTX2070 Super 8GB GPU. This laptop is designed for sustained high-load operation and has excellent internal thermal management.

The Behringer UMC404HD ensures that any professional audio can enter the system with high fidelity utilizing the Midas designed pre-amps and 24-Bit/192kHz A/D conversion.

At-the-ready control is available from the Elgato Stream Deck. 15 programmable buttons can trigger any available vMix action.

Elgato Stream Deck  
Controller

15" Alienware
