

Panasonic single-chip DLP laser projectors? Yes, we have them.

If your live event application demands the quality and flexibility of laser projectors, look no further.

Rentex stocks large quantities of the following Panasonic projectors:

- Panasonic RZ770 (7,000 lumens)
- Panasonic RZ970 (10,000 lumens)
- Panasonic RZ120 (12,000 lumens)

Each of these projectors can be rented with or without a cage. And, we offer multiple options for flying these beauties.

3 laser projectors with the same size chassis & multiple fly options

Panasonic RZ770 (7,000 lumens)

Panasonic RZ970 (10,000 lumens)

Panasonic RZ120 (12,000 lumens)

Panasonic Single-Chip Projector Mounts

Panasonic Gimble Mount

- Single clamp hangs onto standard truss (projector w/cage required)
- Pivots and adjusts to your desired angle
- Maximum working load: 330 lbs

Rigtec Atom Grip Duo Gimble Mount

- Dual clamp hang for standard truss
- Pivots and adjusts to your desired angle
- Safe working load: 650 lbs
- Clamp tube diameter: 1.49" - 2" (projector w/cage required)

Chief Mount (bottom plate)

- Mounts directly onto projector (no cage needed)
- Adjusts roll, pitch, and yaw
- Maximum weight capacity: 250 lbs
- Cables run through the pipe to the mount (Requires a 1.5" adjustable threaded pipe, and coupler with half cheesborough to mount)

● Use the cage with 4 clamps - simple

● Using the ultra-short throw lens with the projector in the cage?
We have the adapter you need (projector w/cage required).
