

Happy New Gear!

New year, new gear from Rentex

LG 86" ultra-stretch UHD display

The LG 86" ultra-stretch UHD display may not be brand new to the market, but, it is probably new to you.

These displays provide a lot of flexibility with high resolution at an affordable rental price. Take your pick of creative applications for digital signage, exhibit booths or on stage scenic elements.

The PBP (picture-by-picture) feature allows the screen to be divided into four parts in either portrait or landscape configuration. The units support 4x1 or 1x4 configuration, and up to 4x4 with daisy chain set up.

Panasonic PT-RQ35KU Laser Projector

This brand new 30,500 lumen, 3-chip DLP, 4K laser projector from Panasonic is the lightest and brightest in its class. As projectors go...this one is pretty impressive.

- 4K resolution (3840x2400) utilizing quad pixel drive
- 3-chip DLP technology with laser light source (no lamps)
- ET-UK20 Geometry Pro software activated on our units
- Geometric adjustment with free grid (free-form) correction

Rental comes
with cage
(ET-PFD765)

Flat Screen Displays of all sizes - ready for the "big game"!

32" to 98"
