New year, more new gear from Rentex

Barco PDS-4K SDI + Audio & DP Expansion
Advanced 4k multi-format event switcher

- 10 inputs | 6x HDMI 2.0 | 2x 12G-SDI | 2x DisplayPort 1.2
- Every input's embedded audio is made available on Dante (up to 64x64 I/O)
- Up to 4 outputs: each copied on HDMI 2.0 + 12G-SDI (8 total plugs)
- Control from front panel or Event Master Toolset
- Auto-setup will read output EDID (HDMI outs) and set-up for best rate
- Front panel follows sources 1-10 by default - but can change to preset recall

Blackmagic Micro Converter - BiDirectional SDI/HDMI 12G

A simple 12G-SDI/HDMI cross converter with downscaling HDMI

Compact and rugged, ready to cross convert anything up to 2160p60! Convert both inputs simultaneously, even at different resolutions - it's like getting two converters in one! Bonus HDMI output auto downscaling makes it perfect for monitoring 12G SDI feeds on standard HD displays. You can even load a 33-pt 3D LUT over the USB-C port, can also be used for power.

AJA Ki Pro Ultra 12G
12G SDI 4K/UHD/HD Recorder and Player
Multi-Channel HD Recorder

We've restocked with the latest in AJA's trusted Ki Pro line - the new 12G edition adds single-cable 12G-SDI and easier multi-recording without requiring genlock sync

- 1x 4K record or 4x HD records to AJA Pak drives
- Embedded or DB25 breakout for audio

Atomos Shogun 7 | 4k HDR Monitor/Recorder, plus record/switch 4x HD

- 7" HDR screen with up to 3000 nits of eye-searing brightness
- ProRes, AVID, and RAW image recording of supported cameras
- 3D LUT, False color, Vectorscope, RGB Parade, Waveform
- Multi-camera touchscreen switching - Record 4 ISO + switched
- 2TB Approved media (Samsung 860 PRO) included in our kit

Blackmagic Television ATEM Studio Pro 4K | 8-input 12G-SDI All-in-one Switcher

A superb compact all-in-one switcher for Ultra HD live productions. Each of the 12G-SDI Inputs supports conversion and sync to ease the workflow. Create dynamic on screen content, layering 1 Upstream and 2 Downstream keyers and utilizing the DVE and media store with motion clips. Fairlight mixing with DSP from analog inputs plus embedded audio, and Talkback for BMD Cameras round out the package.
