Panasonic AK-UC4000 4K Studio Camera Kit

- ✓ All-in-one case solution including SMPTE fiber
- ✓ Large 4.4K sensor
- ✓ Focus assist technology
- ✓ Best solution for IMAG, broadcast or capture
- ✓ UHD mode: 12G-SDI or Quad-Link 3G-SDI output, and HD Mode: 1080p, 1080i and 720p

The Panasonic AK-UC4000GSJ is a 4K studio camera with high video quality. Our recent optical low pass filter upgrade allows our cameras to maximize the resolution and sharpness when shooting in 4K, and the existing filter can be left in place to minimize any chance of moiré. It's compatible with a 2/3 lens mount, as well as a recent modification to allow mounting of Canon box lenses, and contains a newly developed large 4.4K sensor.

Rentex offers two camera chains with a standard lens. See below for additional lens options:

- Panasonic AK-UC4000 4K Camera with 4K Lens Kit (Fujinon UA18x7.6BERD-S10 UHD Lens)
- Panasonic AK-UC4000 4K Camera with HD Lens Kit (Fujinon ZA17x7.6BERD-S10 or M6 HD Lens)
