

YAMAHA DM7-C

The **Yamaha DM7-C** delivers flagship Yamaha performance in a compact, 72-channel digital mixer. With dual touchscreens, motorized faders, 96 kHz audio, and Dante networking, it offers exceptional sound quality and flexible control – perfect for corporate AV, live sound, and broadcast applications where space and performance both matter.

Product Highlights

- **Analog I/O: 16 inputs / 16 outputs**
- **Compact Design:** Offers high performance in a smaller footprint, ideal for space-constrained environments.
- **96kHz Sample Rate:** Ensures high-resolution audio quality for professional applications.
- **Dante Interface:** Provides flexible and high-capacity audio networking.
